2006 JUL 7 A 9:25
OFFICE OF INTERNATIONAL
CORPORATE FINANCE

Calgary, Alberta (July 6, 2006) – AltaGas Income Trust (AltaGas or the Trust) (TSX: ALA.UN) today announced it will acquire a 93 percent interest in a new 10 Mmcf/d sour gas processing facility and a 100 percent interest in an associated 16 kilometre sour gas gathering line in Northwest Alberta for a total of approximately \$12 million. The Clear Hills Gas Plant is being constructed by Tasman Exploration Ltd. and is expected to be fully commissioned by the end of July 2006. The pipeline will connect a number of existing producer wells east of the plant, in what is expected to be an active drilling area. The acquisitions are subject to normal industry conditions precedent.

AltaGas will operate the Clear Hills Gas Plant, which will consist of gathering pipelines, inlet separation, compression, refrigeration, amine sweetening and acid gas flaring facilities.

David Cornhill, Chairman, President and CEO of AltaGas said, "The Clear Hills Gas Plant will allow AltaGas to provide long-term, firm service to a number of producers in an area of western Alberta that is experiencing a growing need for gas processing capacity." He added, "This will be our 74th field gathering and processing facility and our third new plant west of the sixth meridian. We have increased capacity by 9 percent since late 2005, and are moving closer to our \$40 million target for growth in our Field Gathering and Processing business this year."

The project will be underpinned with volume and revenue commitments from a number of producers, including Tasman Exploration Ltd. It is expected to begin adding to cash flow and earnings in August 2006.
